**Janet Rose**

**Instructor of NBCC's Short course**

**“ English for Business and service ”**

1. How do you know about Nongbualamphu Community College (NBCC) ?
  - I known NBCC from Mr.Mongkut who is The Director of Ban Pekfauy School. He invites me to join with him the English classes at NBCC and this class, too.
2. How do you think about The instructional System for this course ?
  - It's a good curriculum, good teachers. Mr.Mongkut is very nice teacher. In this course, teachers use different strategy for students' learning. Teachers prepare good environment before start class. It made our students relax, be active and ready for learning. They try to talk together, try practice and sharing ideas. When they forgot their lesson, they never shy to improved. I think this class is very good and we have fun in this class.
3. How do you satisfy to join with NBCC's Short course ?
  - Good environment, good classroom and Mr.Pathom who is The NBCC's coordinator take a good care for me. He offers convenience in my transportation. In equipment we don't need more medias, no computer, no projector except whiteboard because we use learning by doing such as reading, talking, speaking and use everything surround them. We teach one by one, every student must respond to teacher in class. It is better for them.

## 4. How do you think about The instructional system NBCC's Short course with the community ?

- I am very satisfy. It is a good for people who work or concern about English language because they can use everything they learn in their life. It is a good curriculum and useful for students who are people in the community. The students can use in real event that they found in everyday. In this class , when class is start, students will change their experience, prepare their question to ask teacher. It made we can learn more than contents. I think short course by NBCC can fill full Community's requirements.
